

Professional Development, fully funded

With the *National College of Education* and *Mary Myatt*.

The National College of Education is delighted to announce a unique opportunity for Primary Curriculum Leaders.

In collaboration with national expert Mary Myatt (Myatt & Co), the NCE is bringing a fully funded leadership programme to Leaders in Primary schools. We know that there is an increased focus on the quality of the curriculum we provide for our pupils. This is important and an ongoing element of school improvement. It's also fascinating! The Myatt & Co cohort of the **Education Management Programme: *Leading the Primary Curriculum*** will enable you to understand the principles of great leadership, with enrichment on delivery, implementation and evaluation of the curriculum. In addition to the six twilight enrichment sessions with Mary Myatt, you will also gain access to the primary subject network meetings for the foundation subjects.

The support you will receive is unrivalled, with many of our tutors highly experienced former school leaders, whose single goal is to see you achieve.

Joining the NCE means becoming a part of our learning community, a lifelong membership that will expand your network and create meaningful bonds with others in similar roles.

Since our inception in 2017, we have welcomed over 3,000 learners to our programmes from schools across the UK, creating one of the biggest movements in school leadership history.

Do you want to join us?
